

PRODUCT DATA SHEET

PLA20753 GASKET
SM-PDS-00115 v2.00

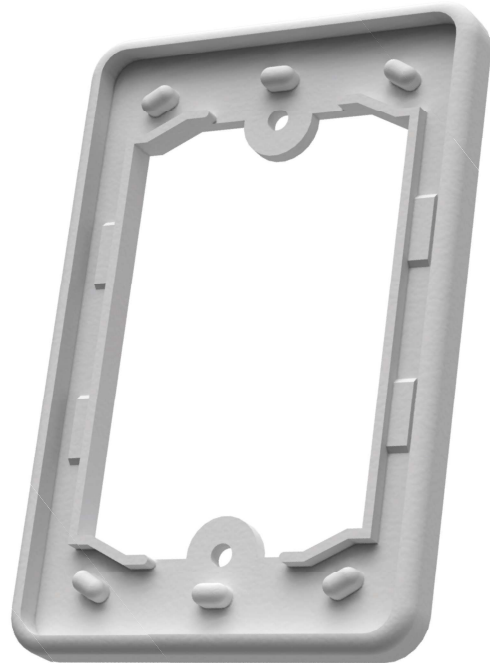

PRODUCT INFO

EASY INSTALLATION

PLA20753 Gaskets fit like a glove to CareCall Call Points and Pull Cords, adding virtually no time to normal fit-off workflows.

IP65+ DESIGN

Install gaskets with your CareCall4 Wet Environment Call Points for a confident seal on a long-lasting solution.

PLA20753 Gaskets are designed for use with CareCall non-socket call points and pull-cords in areas where unsustained contact with light water streams, splashing, and steam presence is likely.

It is suitable for patient / resident wet-areas such as bathrooms, indoor pool areas, and showers, where considering the placement requirements of the relevant device or Clipsal 2000 series suited element being united with the PLA20753 gasket. For areas subject to saturation, such as placement within the shower area or outdoors, install with CareCall4 Wet Environment Call Points for absolute peace of mind.
