

CC4 INTELLIGENT OVER-DOOR LIGHT

Intelligent Over-door Lights are used to show staff the location and priority of calls as they occur. Extra-bright, wide angle LEDs make for a highly visible signal.

Over-door Lights are connected directly to the CareCall network and can be programmed to respond to just one call point, or any selection of call points. They can also be configured to respond only to a particular priority of call e.g., Emergency calls only.

Each light is equipped with three display colours: red, yellow, and green. Blue and white lights are available to special order.

Features:

- Flush wall-mountable unit uses a standard Clipsal Series 2000 plate and mounting box for easy and installation.
- Multiple colours for displaying calls of differing priority, red, yellow, and green, with blue or white available to special order.
- Steady state and flash modes for further distinction of call priority.
- Universally compatible with CC4 can CC3 networks.
- Connection by RJ45 or legacy screw terminals.
- High visibility, typically more than 20 meters.

TECHNICAL SPECIFICATIONS

Dimensions (H x W x D)	113 x 73 x 40mm.
Weight	90 g.
